

# A Clear Commitment to Sustainability

We will integrate sustainability into our business model in the way we design processes and think about products.

We take our responsibility toward the planet and its people seriously.

We are a strong partner and solution provider for a more sustainable future for our customers, suppliers, community, employees and investors.

Process	Impact
State of the art equipment, automation and plant systems	➤ Energy Efficiency & Positive CO <sub>2</sub> Impact
“Free Cooling” chilled water in winter versus mechanical cooling in summer	➤ Energy savings realized from environmental factors
Reduction of CO <sub>2</sub> emissions	➤ 100% carbon neutral energy supply
Commitment, Innovation & Teamwork	➤ Awarded 2023 Gold Ecovadis Sustainability Rating
Global workplace accident prevention	➤ Provides a safe and healthy working environment
Every Centor product produced with a recycling symbol	➤ All Centor products are recyclable
Packaging Reductions & Enhancements	➤ Less packaging equals less waste. Savings on recycled corrugate content of up to 30%.
Reuse and recycling of manufacturing process waste	➤ Materials are recycled, reused or when feasible, eliminated
Liquid ovals manufactured using food grade, recycled PET	➤ First manufacturer to market a plastic liquid oval using RPET
Per customer requirements, PET bottles for oral solids manufactured using either virgin or recycled resins	➤ Availability of over 200 M annual packages manufactured using 100% recycled resin, meeting customers needs for sustainable packaging

**As an ECOVADIS GOLD award recipient,** Centor and Gerresheimer will continue to lead the way in facilitating eco-friendly ways for our stakeholders to positively impact the environment. Through customer and supplier collaboration including regular process review, we will drive sustainable change.
